

Marco Rapaccini

Senior Software Engineer && Technical Cofounder

Tl;dr:

A Senior Software Engineer in love with web engineering, product development, R&D and international teams

About

- I'm Marco Rapaccini, a **human being** working in tech since 2016
- I'm in love with **R&D** and startups
- I consider myself a business enabler: **I transform a vision into human-friendly, working technology**

What I am currently doing

- Senior Software Engineer at [Citizens Advice](#)
 - helping the [Casebook](#) team to maintain and improve the case management system of one of the largest charities in the UK
 - learning by doing Ruby/Ruby on Rails
- Technical Co-Founder at [Clutch-e Bag](#)
 - building from scratch a FashionTech startup business + tech stack
 - creating a wearable MVP
 - patents
 - supply chain management
- Writing an Ebook with [Laura Paveglio](#) about Designers-Devs collaboration
- Starting a [business](#) for importing typical products from [Umbria](#), Italy into the UK
- [Contractor] Creating a security management system for [a logistic company](#)
- [Contractor] Custom Amazon Alexa Skills development for the [Italian Folklore Museum](#)

Previous Working Experience

Transaction 360 Degrees LTD

- **Senior Software Engineer** at [Transaction 360 Degrees LTD](#)
- Aug 2020 - Sep 2022
- Creating from scratch Fintech MVPs working closely with the business team and SW architect
- R&D about new integrations (e.g. Symphony financial secure messaging app)
- Technologies:
 - TypeScript

- React
 - Google Cloud Platform
 - Okta
- Moving to serverless and micro-services
- Onboarding and mentoring new developers

Contract Web Development

- Italy-based freelance activity as web developer, working mainly for Italian SMEs and research centers
- Nov 2018 - Nov 2021
- Some clients/projects:
 - [Water Resources Research & Documentation Centre at University for Foreigners of Perugia](#)
 - [University of Tuscia](#)
 - [Nuova Guseo](#)
 - [Ermesat](#)
 - [Simecom](#)
 - [Federica Mastro](#)
 - [Dovely](#)

Lacuna Solutions

- Web UI Developer
- Sep 2016 - Jul 2017

My public contributions

You can find [here](#) a list of my contributions and articles.

Stuff I know

- JavaScript
- TypeScript
- React
- Okta
- Next.js
- Bash scripting
- Node.js (not my favourite)
- Google Cloud Platform and Workspace
- Neo4j
- D3.js (fun)
- Material UI
- Tailwind
- Styled Components
- PHP (boring)

- Here API
- Leaflet
- SQL
- WordPress

Stuff I am learning

- Ruby/Ruby on Rails
- Web Accessibility
- Web Assembly
- Rust
- AWS
- Cucumber
- Jenkins
- Work with machines that are not connected to a network

Human Languages

- English
- Italian (native language)
- Spanish

Why

Because technology – to paraphrase [Marinetti](#) – will help man to > hurl new challenges at the stars

Where

I live in the UK, but I love to come back to Italy every 6 months

Hobbies

- Reading
- Lego
- Re-watching *The Office* (USA version)
- Hiking
- Boxing

Blog

I write things on [Medium](#)

Let's connect

- [Website](#)
- [Linkedin](#)

- [Twitter](#)

Have a nice day folks!
